CERTIFIED R&D CENTER OF AUTOMATION

Developer of Uniqueness

Interra Iswitch Elegant & Smart & Universal

Interra

Iswitch brings functionality and design to users.

With its elegant and stylish design, Iswitch draws attention with its talents. It meets all expectations with its wide range of materials and colors.

Intelligent control adds energy and efficiency while adding comfort and aesthetics to your living space.

Iswitch can provide self-routing with the next generation automation switch.

Control lighting, light level, curtain / blinds, and air conditioning scenarios.

The thermostat provides energy efficiency by automatically changing the set degree thanks to its operating modes.

Automatically controls areas with integrated temperature sensor.

Thanks to the existing moisture sensor, it can operate the additional ventilation system.

Functions and Symbols;

The symbol you prefer from our library is applied to the buttons.

User-friendly icons for residence and hotel applications combine with Iswitch's performance. Symbols help users know the function of the buttons.

Interra helps customers and architects with a predefined library of symbols.

Control figures such as in "do not disturb" or "clean the room", can be engraved or lasered during production.
